

**ID** EAS FOR THE REAL WORLD

## HIGH QUALITY PRINTERS

Setting the standard for the ID card industry, Polaroid's Photo ID Card printers bring you sharp, crisp, printing; compact, portable design; easy setup; and user-friendly operation. Both the P4000 and P3000 are upgradeable to include magnetic stripe encoding, and feature fully-integrated, high-quality supplies that optimize print performance and efficiency. Each printer is also built to integrate flawlessly with our ID Card Maker software (V5.3 and beyond), helping you create a seamless ID workflow for your organization.

## SUPPLIES

Polaroid's high-quality ribbons and cleaning supplies are designed specifically for use with Polaroid ID System printers. This ensures you'll get superior card results each and every time—consistent, high-quality images whether you're printing in color or black & white. Meanwhile, our Ribbon Saver feature for monochrome printing helps optimize the number of cards printed per ribbon by spooling ribbon according to the size of the image printed, not simply the size of the card. For both single and double-sided color and monochrome printing, count on Polaroid's customized supplies to help you produce standout ID cards for your organization.

### P4000 PHOTO ID CARD PRINTER

Polaroid's most advanced Photo ID Card printer, the P4000, brings you single- or double-sided color or monochrome printing, a full range of security options, and greater production capacity.

Feature	Benefit
Print speed up to 180 full-color or 700 monochrome ID cards per hour	True productivity with increased throughput of ID cards
Lightweight construction	Portable configuration is easy to unpack and install
Front-side input and output hoppers; standard 100 card hopper or optional 200 card hopper	Convenience for the operator; better accessibility to cards; less desk space required
Optional locking input hoppers	Added security for your card program
Upgradeable for magnetic stripe, smart card and HID i-Class proximity card encoding	Flexibility to upgrade the printer as your needs grow
Connectivity <ul style="list-style-type: none"> <li>◆ Bi-directional USB standard</li> <li>◆ Bi-directional USB &amp; Ethernet optional</li> </ul>	True network connectivity with Ethernet option; no need for dedicated PC or additional hardware; easy setup via LCD Display with touchpad
Customized ribbons <ul style="list-style-type: none"> <li>◆ Auto Ribbon ID</li> <li>◆ Supply usage monitor</li> <li>◆ Ribbon Saver on monochrome</li> </ul>	Automatically sets ribbon type; low-ribbon notification; reduces ribbon waste; automatically adjusts printer setting for optimum printer quality
