

Rio PROTM

The professional's choice for secure card printing

Secure

The Magicard Rio Pro's patented HoloKote[®] security technology adds a watermark to the card as it is printed - it requires no additional consumables and can be customized to an individual logo design - enabling true security at no extra cost. Secure encoding options include magnetic stripe and smart card technologies.

Expert

Built for professionals, the Rio Pro's superior card printing quality is enhanced by ICC profiles that seamlessly map colors between software and the printer. The clear 4-line display provides intelligent user information and interaction.

3 year limited warranty and support

The Rio Pro is supplied with a free, 3-year warranty with hassle-free printhead cover and loaner service.

(Available in North America, EU and other selected territories. Elsewhere 2 years limited depot warranty.)

Flexible

USB and Ethernet interfaces are complemented with a Microsoft-certified plug & play driver. Batch print with the interchangeable 100-card feeder or print one-offs or rewritable cards with the hand-feeder. Upgrade a single-sided Rio Pro to duplex printing using a simple in-field upgrade kit.

Tough

Built with high performance purpose-built materials and advanced components, the Rio Pro is designed and manufactured at Ultra Electronics' centre of excellence for manufacturing in the UK and is backed with the market-leading UltraCoverPlus warranty.

Card security options

HoloKote®

A standard anti-counterfeiting watermark printed in a grid pattern across the entire card surface. The Rio Pro HoloKote features 4 standard designs.

HoloPatch®

HoloPatch cards have a highly reflective gold 'super diffuser' foil square that enhances the visibility of the overprinted HoloKote logo.

Custom HoloKote Flex®

A fully flexible and customizable anti-counterfeiting watermark printed across the entire card surface.

Magnetic stripe

The Rio Pro can be specified with ISO standard 7811 compatible HiCo encoding of magnetic stripe cards.

Smart card encoding

Smart card encoding options: Contact chip, MIFARE, DESFire, iClass.
