DATACARD® ID WORKS® STANDARD IDENTIFICATION SOFTWARE

With separate packages for design, production, reporting and administration, ID Works Standard identification software lets you distribute tasks effectively and pay only for the features you need at each workstation.

Advanced software for your ID card program

Datacard® ID Works® Standard identification software delivers a user-friendly set of tools for fast and flexible card design, simple yet secure card production or a combination of these capabilities. Discrete packages for design and production allow you to manage these functions at separate workstations.

Powerful, modular platform

• **Intuitive design tools.** With ID Works Standard Designer software, you can design cards, reports and production forms quickly and easily. Shape drawing, transparent backgrounds and ghost images help customize cards. The software also allows you to integrate production forms with ODBC-compliant, multiple-table databases.

• **Enhanced operational productivity.** ID Works Standard Production software makes it easy to capture images, enter and retrieve data and print cards and reports separately from the design package. User-friendly features include predefined list fields, drop-down menus and data-driven card selection. The software also offers smart card support (proximity plug-in) to simplify smart card personalization management.

• **Smooth integration.** The software leverages a wide range of Datacard® desktop card printers, including Datacard® SP Plus Series card printers, as well as many other brands. It also supports Datacard® Tru™ Photo solutions for image capture and the Tru™ Signature solution for signature capture.

Standard Features

Flexible card, report and production form design
 User-defined card size (CR50, CR80, Custom)
 Auto-create production form
 Shape drawing support
 Font sizing and colors
 Multiple field selection, alignment and formatting
 Copy card and report designs between projects
Field types
 Variable text (with masking); Static text (with word wrap option); Photo (with border, ghost or transparent background option); Date; Bar code (21 types); Magnetic stripe; Static and variable graphic (with transparent color option); Non-printable area; List; Composite; Print count; Auto sequence; Signature; Smart card; Event button
Image management
 In-production image import and export (.BMP, .EPS, .JPG, .PCT, .PCX, .PNG, .PSD, .TGA, .TIF, .WMF)
 Image and signature storage as BLOBs or files
 Multiple images per record
 Crop and adjust existing photo
Production and data management
 Data-driven production
 Supports multiple-table databases
 Supports Software Developer's Kit
 Proximity card plug-in
 Auto-create Microsoft® Access 2000 database
Database management
 Quick, advanced and stored searches
 Retrieve records from "today"
 Retrieve records from "this week"

Database support
 Oracle® Oracle8i, Oracle9i and Oracle10g®
 Microsoft Access 2000, 2007 and 2010
 Microsoft® SQL Server™ 2000, 2005, 2008 and 2010
 IBM® DB2® Universal Server 7.1 and 8.1
Help features
 Online user's guide
 Online help
 Help desk support
Security features
 Wizard for managing user account privileges
 USB hardware security key
 Application- or activity-level user security (per computer or system-wide)
 Login timeout feature
 Restrict project access by user
 Secure user audit trail
Compatible with the extensive line of Datacard® card printers
Image capture options
 File input
 Tru Photo solutions
 TWAIN capture devices
 Video for Windows capture devices
 Tru Signature solution
 ID Works Visitor Manager solution

System Requirements

Operating system
 Microsoft® Windows® 2000, XP, Vista® , 7 (32-bit or 64-bit), 8 (32-bit or 64-bit)

DatacardGroup

SOLUTIONS AND SUPPORT FROM A PROVEN PROVIDER

Only Datacard Group offers the hardware, software, supplies and service required to manage secure centralized and instant card issuance. We understand the consumer demands, security risks and other unique needs of both issuance models. For 40 years, financial card issuers around the world have trusted us to make card issuance fast, affordable and secure. The Datacard Secure Issuance Platform reflects this unmatched experience. You can also optimize your investment with our full line of professional services for planning, data migration, program start-up and ongoing technical support. We provide support in more than 120 countries.
