# Lobby Track

## Innovative Visitor Management Software

Lobby Track is the world's leading visitor management and member tracking system, allowing organizations to register, badge and track groups of people at their facilities. Centralized management, networked data-sharing and reporting makes it easy to deploy across multiple stations and locations. Allow visitors to self register and check in and out at unattended kiosks. Perform automatic, immediate background checks for enhanced security. The open data architecture allows easy integration with existing access control systems, HR databases and Active Directory.

## JOLLY

## Complete Tracking Solution

· Track visitors, employees, students, members, contractors or any other group of people

· Pre-register visitors online

· Customizable self-registration kiosk mode with photo capture, NDA and other optional steps

· Check against local watch list or perform online background check

· Print expiring paper badge or plastic ID card

· Add to access control system

· Check in or out by swiping mag stripe or scanning barcode

· Lookup records by entering personal information and print replacement cards

· Calculate and export time and attendance data

· View or print emergency evacuation reports

· Create detailed logs, reports and charts

## The Lobby Track Advantage

### Visitor Management
Keep track of all visitors entering your facilities easily with Lobby Track's visitor pass creation and record-keeping capabilities. Create professional visitor passes, pre-register visitors online and run in kiosk mode for efficient self-registration.

### Student Attendance
Lobby Track offers all of the necessary tools to manage student records, issue ID cards and track student attendance. Take class attendance by scanning ID card, mark students as absent or tardy. Automatically generate detailed attendance reports.

### Membership Management
Track all members, staff, and contractors. Check in personnel by scanning badges and IDs and create logs for each group. Use charts to visualize peak facility usage hours and locations.

### Time and Attendance
Each check-in and check-out event is logged. Capture additional information such as project, job and accounting codes. Lobby Track automatically calculates hours and attendance for each person. Export the data for use with your existing payroll system.

### Entry / Exit Tracking
Control and monitor access to your facility. Configure flexible access rules, manage multiple groups of people, issue temporary or permanent ID badges and integrate with existing access control systems.

### Professional Card and Badge Design
Design professional photo ID cards and visitor badges using an integrated version of Jolly's card design suite, ID Flow.
