Zebra® QuikCard™ Professional Photo ID Kit

ZEBRA TECHNOLOGIES

SEE MORE. DO MORE.

Everything You Need to Create Professional-Quality Cards

Zebra's QuikCard Professional Photo ID Kit gives any size organization the power to create professional-quality identification, security and commerce-related cards. Pair it with any Zebra card printer to meet your specific requirements for an end-to-end solution.

High-Value, Simple-to-Use Solution

This affordable, all-inclusive starter kit makes it simple for your organization to quickly and easily set up a professional ID system or other photo card program with the quality and professional appearance you require.

The QuikCard Professional Photo ID Kit Includes:

- Zebra CardStudio™ Professional edition design software, which includes templates for easy and fast creation of a variety of card types.
- A USB high-resolution digital camera for capturing photo ID pictures.
- A genuine Zebra™ card supplies starter kit (a supply of 700 cards, available with or without magnetic stripe).
- Easy-to-assemble portable backdrop with adjustable stand.

Ideal for these applications

- ID cards
- Access control cards
- Retail and loyalty cards
- Club and association cards
- School and library cards
- Visitor badges

QuikCard Professional Photo ID Kit

CardStudio Software (Professional Edition)

- **Zebra Quick Design Templates**—Drastically reduces the time necessary to create professionally designed cards with high-quality graphics. Easy-to-use template designs quickly allow creation of custom card designs while bypassing the learning curve normally associated with card design software.
- **Quick Card Designer**—Collection of standard card design backgrounds, logos, and design elements (with associated datafiles) for quickly creating custom card designs by editing text, data and graphics of predesigned cards; or build your own unique card design.
- **Languages supported**—English, German, French, Italian, Spanish, Portuguese, Korean, Japanese, Danish, Czech and Traditional and Simplified Chinese.
- **Software features include**—Full-color design capabilities (single- and double-sided cards); image acquisition (VFW, TWAIN, WIA, DS, File); printing variables (date, time, counters, concatenation and keyboard input); 1-D and 2-D barcodes—complete library; magnetic encoding (ISO, JIS).
- **Database Management**—Connect your database to seamlessly import data for multiple card-production applications.
- **Advanced Encoding and Security**—Encode magnetic-stripe cards, contact or contactless smart cards and UHF RFID cards using security features with password-protected logins for multiple users.

Photo ID USB Digital Camera

- **High-Resolution Photo ID Camera**—Capture high-resolution, color digital images with the easy-to-install and easy-to-use camera. Just insert the camera USB cable into a computer USB port for plug-and-play connection.

Specifications

- Video and photo capture
- All-digital megapixel photos
- Flexible gooseneck arm allows for easy camera positioning
- Small footprint saves table space
- High-speed USB 2.0
- CCD sensor provides high sensitivity and quality
